PRAKASH LABELS

Innovators in Auto ID & Labeling Solutions

"Innovation is change that unlocks new values"
PRAKASH LABELS comes up with new ideas & innovation
that will make your "BRAND SHINE".

About Us

PRAKASH LABELS recognizes that there are many reasons to give a different ultimate look to your products and keeping this in mind in the year 1992-93 the company was established. We offer contemporary & innovative labeling solutions that can cater to the packaging & branding needs of diverse industries. We at "PRAKASH LABELS" are a young and dynamic organization, engaged in the manufacturing, exporting and supplying customized printed labels. Our wide range of labels includes Self Adhesive Labels, Non-Adhesive Labels/Cut Labels, Vacuum Metalized Labels, Roll Form Labels, Sheet Form Labels etc. Apart from labels of different kinds we also offer paper tags, baggage tags, boarding passes etc.

In addition to decorative labels segment Natural Feel Effect is an amazing overprint value addition feature developed by Prakash Labels that makes the design of printed products come alive. It is a dynamic feature that enables natural elements of a design or an artwork look extremely real both visually and by mere touch. This feature can be used in printed products for cosmetic, beauty, food industry, liquor segment or any segment in which the artwork incorporates natural elements like flowers, fruits, vegetables, cereals, hair etc. The 3D effect through this amazing technology gives security also to your product.

Unlike Spot UV or Textured UV, where the former is used to shine & later is used to give a rough feel at a specific portion of a design, Natural feel effect treats each grain of design uniquely like in case of rose, each petal would be enhanced or roughened depending upon its design providing the real feel of the rose on the printed product.

INFRASTRUCTURE:

We use the latest UV Letter Press Printing System that can print up to 4 on 4 colours, We also have **Fully Automatic 8 colour Flexo Printing** and on various films and papers with sprocket punching, silk screen printing, foiling, printing on foil, varnish or lamination finishes simultaneously along with online as well as offline die cutting process. This gives us the flexibility to deal with every customized application as per requirements. Our state-of-the-art prepress, press, printing machines and strict quality control makes us one of the top self-adhesive label manufacturer. We thus ensure highest quality standards with innovative ideas, quicker delivery and competitive pricing.

Advantage of Labels in Roll Form

- Clean Labeling
 - Avoid messy wet glue process
 - No adhesive marks
 - 100% adhesion
 - Accurate placement on bottles and no ill fitting
- 100% traceability to raw material
- 100% accountability
- Exact quantity

Standard Operating Procedures to Eliminate Defects

- **TRACEABILITY:** Standard Operating Procedures (SOP's) to investigate any quality issue and resolve complaints.
- **CONTROLLED PROCESS:** Top notch facilities with separate production and storage arrangements for controlled manufacturing.
- **CLEANLINESS/HYGIENE:** Advanced facilities ensure complete hygiene and zero contamination.
- **QUALITY:** World class manufacturing facilities and modern printing machines capable of printing upto 10 colours and Inspection Machines ensure 100% defect free labels.
- **GMP GUIDELINES:** Our Manufacturing processes are strictly as per GMP guidelines.

Quality/Inspection

- Automated online verification system eliminates defects in labels, which is not possible in sheet form
- 100% Defect Free Labels
